

Appendix 5.1

Zone of Theoretical Visibility

-  Development Centre
-  Zone of Theoretical Visibility

Map Details

Map illustrates the Zone of Theoretical Visibility to a 2km radius of the proposed solar array calculated using the highest point of the panels.

The ZTV is computer generated in ReGolf Windfarm V5 using OS landform terrain 50 data and takes into account natural and built features within the landscape. All barriers are considered by the software to obscure the development entirely with no demonstration of filtered views or partial screening. The earth's curvature and atmospheric refraction are included. Viewer height above the ground is 1.7m.

Scale: 1:15,000 @ A3

Client Name Bluestone Energy Ltd
 Site Name SLG Bridge of Weir
