

# Appendix 13.1

## Proposed Access and Delivery Routes

- Proposed Delivery Route
- Proposed Access Track

### Map Details

Access to the site will be via the U144W Valleyfield Road, which serves all proposed hen sheds. This road connects to the wider regional road network, ultimately providing access to the A75/A77 corridor. An indicative delivery route from the A75/A77 corridor is shown for context; actual delivery routes will vary depending on where materials are shipped from.

While the U144W is an existing public road and is not presently used for frequent agricultural access associated with the site, the adjoining fields are actively grazed and the connecting rural roads in the area experience typical agricultural traffic associated with farming operations.
