

PROJECT INTRODUCTION

WHAT IS THIS EVENT?

Cogeo Planning and Environmental Services Ltd. and Bluestone Energy Ltd. are proposing a Battery Energy Storage System (BESS) and associated infrastructure on land off Locks Street, Coatbridge, ML5 3RT.

As the capacity of the development is over 20MW the development is classed as 'Major'. Ahead of submitting the Planning Application, the applicant is undertaking two in-person public consultation events to share the proposed development with the public and to gather feedback.

The development consists of 22 Battery Storage units with a generating capacity of 45MW. Existing access will be utilised, and a private access road has been proposed to service the BESS. In the lead-up to this event, leaflets about the project were circulated to nearby properties, and an advert appeared in the Airdrie and Coatbridge Advertiser.

WHO ARE BLUESTONE ENERGY LTD?

Bluestone Energy Ltd. is a renewable energy developer specialising in BESS, Solar PV, Onshore Wind, and Hydrogen. Our mission is to create a sustainable future, driven by innovation at the core of everything we do. Since our inception in 2018, Bluestone Energy has built a strong reputation as a leading development partner for major organisations such as Total Energies, E.ON, and Macquarie. This success is powered by our team's expertise in grid, planning, and land, along with our proprietary software that enables real-time grid capture. Through strategic partnerships, we aim to deliver 15 GW of renewable energy by 2035. To date, we've already delivered around 3 GW.

WHO ARE COGEO?

Cogeo Planning and Environmental Services Ltd. was established in 2017. As a planning consultancy with a reputable record for thorough and comprehensive support, our goal is to provide expertise, knowledge and guidance to all clients through the differing stages of development.

By creating a smarter plan for each project, we select the skills and services required to overcome whatever planning challenge may arise through the lifetime of a planning proposal. Consisting of a vast range of specialists who work together daily, we take care of managing the entire process from inception to finish, believing that Communication, Collaboration and Clarity are the best approach to successful outcomes.
